

# APPLICATION FOR PERMIT TO APPROPRIATE THE PUBLIC WATERS OF THE STATE OF NEVADA

Date of filing in State Engineer's Office..... OCT 11 1993

Returned to applicant for correction.....

Corrected application filed.....

Map filed..... OCT 11 1993

The applicant..... Western Energetix Corporation

P. O. Box 822, of Reno,  
Street and No. or P.O. Box No. City or Town

Nevada 89504, hereby make<sup>s</sup> application for permission to appropriate the public  
State and Zip Code No.

waters of the State of Nevada, as hereinafter stated. (If applicant is a corporation, give date and place of incorporation; if a copartnership or association, give names of members.)..... May 27, 1983

1. The source of the proposed appropriation is..... shallow ground water (underground).  
Name of stream, lake, spring, underground or other source

2. The amount of water applied for is..... 0.0446.....second-feet  
One second-foot equals 448.83 gals. per min.

(a) If stored in reservoir give number of acre-feet.....

3. The water to be used for..... environmental clean-up  
Irrigation, power, mining, manufacturing, domestic, or other use. Must limit to one use.

4. If use is for:

(a) Irrigation, state number of acres to be irrigated.....

(b) Stockwater, state number and kinds of animals to be watered.....

(c) Other use (describe fully under No. 12. "Remarks").....

(d) Power:

(1) Horsepower developed.....

(2) Point of return of water to stream.....

5. The water is to be diverted from its source at the following point<sup>s</sup> within the SE $\frac{1}{4}$  of the NE $\frac{1}{4}$  of  
Section 8, T.19N., R.20E., M.D.M. at points Describe as being within a 40-acre subdivision of public  
from which the east  $\frac{1}{2}$  corner of said Section 8 bears: South 65°18'52" East,  
survey, and by course and distance to a section corner. If on unsurveyed land, it should be so stated. 1282.31 feet - Well M-1;  
South 70°43'24" East, 1200.38 feet - Well M-2; South 69°55'21" East, 1286.30  
feet - Well M-3.

6. Place of use..... within the SE $\frac{1}{4}$  of the NE $\frac{1}{4}$  of Section 8, T.19N., R.20E., a portion  
Describe by legal subdivision. If on unsurveyed land, it should be so stated.  
of Washoe County Assessors Parcel No. 32-301-84.

7. Use will begin about..... January 1.....and end about..... December 31....., of each year.  
Month and Day Month and Day

8. Description of proposed works. (Under the provisions of NRS 535.010 you may be required to submit plans and specifications of your diversion or storage works.)..... Pump from drilled ground water recovery  
State manner in which water is to be diverted, i.e. diversion structure, ditches and  
wells - see Item 12 for additional description.  
flumes, drilled well with pump and motor, etc.

9. Estimated cost of works.....\$200,000
10. Estimated time required to construct works.....Shallow ground water recovery wells (3) are completed. The remainder of the works will require approximately two months to complete.  
If well completed, describe works.
11. Estimated time required to complete the application of water to beneficial use.....Two years, this period will be based upon monitoring results of ground water samples.
12. Remarks: For use other than irrigation or stock watering, state number and type of units to be served or annual consumptive use:  
Shallow ground water is to be pumped from three shallow ground water recovery wells; petroleum hydrocarbon contaminated ground water is passed through an internal combustion engine and/or granular activated carbon, the hydrocarbons are removed from the water. The treated water will be discharged to the storm and/or sewer system. The estimated volume that will be treated is 1,401,600 cubic feet/year.

APPROVAL OF STATE ENGINEER

This is to certify that I have examined the foregoing application, and do hereby grant the same, subject to the following limitations and conditions:

This permit is issued subject to existing rights on the source. It is understood that the amount of water herein granted is only a temporary allowance for pollution control as mandated by orders issued by the Nevada Division of Environmental Protection and subsequent correspondence with said agency. A totalizing meter must be installed and maintained in the discharge pipeline near the point of diversion. It is also understood that this right must allow for a reasonable lowering of the static water level of permittee's well due to other ground water development in the area. The well shall be equipped with a 2-inch opening for measuring depth to water. The State retains the right to regulate the use of water granted herein at any and all times.

\* The right will cease to exist upon termination of clean up activity as determined by the Nevada Division of Environmental Protection.

This permit does not extend the permittee the right of ingress and egress on public, private or corporate lands.

The issuance of this permit does not waive the requirements that the permit holder obtain other permits from State, Federal and local agencies.

(CONTINUED ON PAGE 2)

The amount of water to be appropriated shall be limited to the amount which can be applied to beneficial use, and not to exceed 0.0446 cubic feet per second, but not to exceed 32.289 acre-feet annually.

Work must be prosecuted with reasonable diligence and be completed on or before

Proof of completion of work shall be filed before

Application of water to beneficial use shall be filed on or before

Proof of the application of water to beneficial use shall be filed on or before

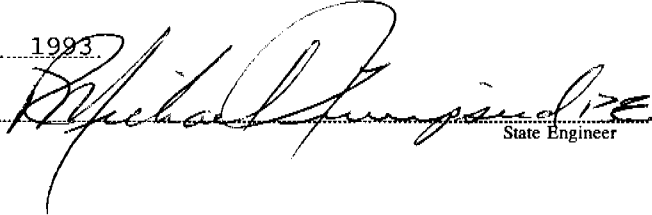

Map in support of proof of beneficial use shall be filed on or before

Completion of work filed  
Proof of beneficial use filed  
Cultural map filed  
Certificate No. Issued

IN TESTIMONY WHEREOF, I, R. MICHAEL TURNIPSEED, P.E.  
State Engineer of Nevada, have hereunto set my hand and the seal of my

office, this 6th day of December

A.D. 1993

  
State Engineer

## (PERMIT TERMS CONTINUED)

This permit is issued pursuant to the provisions of NRS 533.4375. Well drillers reports for any well(s) drilled under this permit shall be filed within 30 days from the completion of the well.

Within 30 days after the completion of the project, the permittee shall notify the State Engineer of such completion and all wells shall be plugged and abandoned in accordance with Chapter 534 of the Nevada Administrative Code.

Monthly records shall be kept of the amount of water pumped from this well and the records submitted to the State Engineer on a quarterly basis within 15 days after the end of each calendar quarter.
